

Navarro Research & Engineering is seeking a skilled and experienced full-time electrician to join our team at the Tonopah Test Range. This position involves a variety of electrical tasks, including installing, maintaining, and repairing electrical systems and equipment, troubleshooting electrical issues, wiring buildings and structures, ensuring compliance with electrical codes and safety standards, and supporting general building and facility maintenance.

Candidates must have at least 5 years of electrician experience and either possess or be eligible to obtain a DOE Q Clearance. A valid Nevada driver's license is required. We offer competitive pay based on experience, along with a comprehensive benefits package.
